

2007 SUMMER PROGRAMS

Dear Parent(s) and Student;

Thank you for your interest in our summer school programs.

There are three types of sessions that we are pleased to offer again this year. All of these courses lead to an approved Ontario Ministry of Education credit and include the high standards, innovative approach and personal attention that we have become known for. There are more than 30 credits being offered.

The first group, classroom based credits, are primarily courses where intensive classroom study and support are necessary for student success. Credits in subjects such as Mathematics, Science and English are the most common but based on student demand, others courses will also be available. The two sessions run from July 3-30, and August 1-29, from 9:30 am – 3:30 pm. The courses are designed so that a minimum of homework will be required.

There are also fifteen courses offered in our unique, proactive approach to the Ontario Curriculum offered over three week sessions. Students will spend more than 50% of their time creating, exploring and learning in this very hands-on environment. These credits are so well received that they have been referred to as camp-credits. Sessions are available July 9 – July 27, July 23-August 10 and August 7 – August 24 and are scheduled from 9:00 am – 5:10 pm.

Lastly, students can also earn credits at our 500 acre outdoor centre near Bancroft, Ontario. These two week sessions offer a unique opportunity for students to immerse themselves in a different environment and to benefit and enjoy the natural setting and recreational opportunities. Sessions are offered July 16-30, July 23 - August 6, July 30–August 13 and August 13-27.

If required, all students are welcome to our Sunday study hall for extra help.

Visit our web site for more information and if you have additional questions, please feel free to contact me at the email address below.

Sincerely,

Neil Cohen
